

Single Stream Recycling - Recycling Made Easy! Everything in One Bin - No Sorting Necessary

“Increasing the amount you recycle can make a dramatic impact on the environment.”
Why Recycle?

Recycling is an important way for individuals and businesses to reduce the waste they generate and reduce the negative impact of that waste. Recycling conserves our natural resources, saves landfill space, conserves energy, and air pollution. It generally takes less energy to make products with recycled materials than virgin materials, often significantly less. For example, it takes 20 times more energy to make aluminum from bauxite ore than using recycled aluminum. This means fewer fossil fuels are burned and less carbon dioxide is emitted to the atmosphere.

You Can Make a Difference

Increasing the amount you and your family recycles can make a dramatic impact on the environment. If every American recycled just one-tenth of their newspapers, we would save about 25 million trees a year. By recycling you are choosing to make a difference, and benefiting future generations to come.

Single Stream Recycling

is the latest state-of-the-art technology which sorts recyclables at our facility. Putting everything in one bin increases the ease and convenience of recycling so that more people participate and more resources are saved.

Materials Guidelines - Save & Post

Paper

Paperboard
No wax coated paperboard

Office Paper
All types and sizes

Junk Mail
Envelopes, Flyers, Brochures, Postcards, etc.

Newspapers
Remove bags, strings and rubber bands

Magazines & Catalogs
All types and sizes.

Cardboard & Paper Bags
Flatten cardboard & cut into pieces.

Phone Books
All types and sizes.

Plastic

Household Plastic
Empty containers only

Plastic Bags*
Most retail & grocery bags

Plastic Jugs/Bottles*

Metal

Aluminum Cans*
Empty cans only

Kitchen Cookware
Metal pots, pans, tins & utensils

Steel & Tin Cans*
Empty cans only

Glass

Glass*
Clear & colored

Please Follow These Guidelines Carefully - *Please rinse/clean containers before putting into recycling bin.

Unacceptable Items - Paper milk or juice cartons, Styrofoam containers/packing, Garbage, Propane Tanks, Paint Cans, Medical waste/syringes, Flammable liquids, Household cleaners, Chemicals (dry or liquid), Wood items, Concrete, Garden hose, Electrical cords

Recycle Bin Full? Clear plastic bags can be used for additional items.
